

# Save up to 15% on your car insurance

In the State of Delaware, if you take a six-hour Basic Defensive Driving course, you can knock 10% off your car insurance. If you take an Advanced Defensive Driving course you **may** save up to 15% off your car insurance.

DSEA is pleased to announce that we are offering these two courses just for members and their families, a \$35 value for only \$12. Refreshments will be provided and Horace Mann Insurance Co. will also offer a door prize to a lucky winner.

These courses will be given by an instructor from Interstate Training Alliance, LLC. You must attend the full six hours for the Basic course or the full three hours for the Advanced/Refresher course to receive your certificate. The Basic course is required first and is good for three years before it is necessary to take the Advanced/Refresher course. Each certificate is honored by your insurance company for 3 years.

Space is limited so sign up soon.
